Insurance

As a patient, you are responsible for determining whether your insurance plan covers Dr. Shin's services. You should call your insurance provider or check its website to determine whether you are eligible to obtain services from Dr. Shin through your plan.
You also should be aware that many insurance plans require your primary care physician to submit a written referral before they will pay for the services of specialists, such as Dr. Shin. You are responsible for making sure that the proper referral documentation is submitted prior to you visit.
We encourage you to contact your insurance company; this is the safest way to avoid an unwanted liability. You have every right to obtain an oral and/or written reply from your insurance provider – particularly given that you probably are paying for the coverage!

Release of Benefits and Information

I have read and I accept the conditions listed under the heading "Insurance." I authorize my insurance benefits to be paid directly to the doctor. I understand that I am financially responsible for any balance due. I authorize the doctor or insurance company to release any information required for this claim.

Printed Name: _____ Date: _____

POLICIES OF UNI CLINIC

We strive to provide excellent medical care to all of our patients; therefore, we have established several policies that will help us meet this goal in an effective and efficient manner. We ask that you review the following policies and indicate your willingness to comply with them by signing in the indicated space. We will provide you a copy of this agreement to keep upon request.

Scheduled Appointments

Appointment time at our clinic usually is scheduled far in advance; therefore, patients often should wait longer than desired for treatment. When we receive 24-hour advance notification that you will be unable to keep your appointment, we frequently are able to fill your slot. On the other hand, last-minute cancellations and "no shows" reduce our ability to meet patients' needs. Our policy is to provide one warning for late cancellations/"no shows" and to charge a $35 fee thereafter. Please be aware that most insurance companies will not cover this fee and that you are likely to be personally responsible for pay it.

No Prescription

Dr. Shin will not prescribe any medication.

Emergencies

Generally, your medical needs will be satisfied most effectively by calling during our regularly scheduled office hours or leaving a message on our answering machine. Emergencies are rare in our practice. Of course, you should call 911 for any life-threatening emergencies, but if you feel you must have immediate attention, please call 425-228-7446 and follow the instructions for contacting our answering service.

Agreement

By my signature below, I acknowledge I have read and agree with these policies.
